## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21, 23 and 25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 35700697A to Kimura.

With respect to Claims 21 and 23, Kimura teaches the bag onto which printing content is printed by a printing device in the Purpose of the Abstract, the bag comprising a first mark (bar code) in the Purpose of the Abstract and Constitution of the Abstract. With respect to Claim 25, Kimura teaches that the bag 4 of Kimura has a layer adopted to be printed by a printing technology 3 in figure 3 and the Constitution of the Abstract.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 22 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kimura.

With respect to Claim 22, Kimura teaches a mark (barcode), but does not teach that a second mark is used to identify the bag material. However, it would have been obvious

Art Unit: 2854

to one of ordinary skill in the art to use the mark of Kimura to identify the bag material as an aesthetic design feature not affecting the structure of the bag. With respect to Claim 24, Kimura teaches that the mark is a barcode in the Purpose of the Abstract.

5. Claims 22 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kimura in view of Buinevicius et al. (WO 99/49408).

With respect to Claim 22, Kimura teaches all the claim limitations except that the mark (barcode) indicates a bag material. Buinevicius teaches that a mark (barcode) may indicate a bag (flexible packaging) material in the Advantage. It would have been obvious to one of ordinary skill in the art to use a mark (barcode) to indicate the bag material to facilitate inventory control as taught by Buinevicius in the Advantage. With respect to Claim 24, Kimura teaches that the mark is a barcode in the Purpose of the Abstract.
